

# East Grinstead u3a General Disclaimer

Members are advised that, when they take part in any u3a activity, either indoor or outdoor, they do so entirely at their own risk and responsibility. This applies to their well-being, their safety and their belongings, in all venues, including a Group Leader's or group member's home. The Group Leader is a volunteer, providing only guidance and advice, and enabling the activity to take place. Group Leaders will only supply general information about a particular subject, and this in no way constitutes professional advice on which to rely. The Group Leader is in no way responsible for you as a member, or for your possessions. Members should tell the Group Leader in advance of any medical issue that might impede their ability to participate, or that might impact on the safety or well-being of themselves or the group. Risk assessments will be available from Group Leaders.

## **Insurance**

U3a member activities are covered for third party liability insurance by the Third Age Trust. This is not personal injury insurance, and participants are responsible for their own health and safety and the security of their own belongings.

## **Car sharing**

This can be used as a means of reducing car usage and fuel consumption, and to simplify parking arrangements at some venues. Car-sharing is undertaken as an informal arrangement between the driver and other members, and should a car-related incident occur, it will be dealt with via car insurance, not u3a insurance cover. Members who provide transport for other members must be aware of the responsibility they incur and should ensure their vehicle is road worthy. Members who accept lifts do so at their own risk. Any payment for transport is a matter between the individuals involved.
